TRANSFORM GARDENS WITH STYLISH, LOW-MAINTENANCE COMPOSITE FENCING

Composite fencing is quick and easy

The unique finish of composite fencing will add beauty and complement a gardens' natural surroundings. These incredibly light fencing panels are incredibly strong, making general handling and transportation easy.

20-year guarantee

All composite fencing products come with a 20-year manufacturing guarantee against rotting. Variations in colour, shade or pigment are NOT covered under our guarantee. These variations in no way affect the longevity of the product. (For further information on the product guarantee, please review the full composite fencing terms and conditions). For more information, call 0800 988 7309 or visit deeplas.co.uk

COMPARE THE COSTS - SAVE MONEY

Old timber panels

10-year maintenance cost for 10 No 6'x6' timber panels. Composite fencing will work out much cheaper over time compared to timber panels, which would need to be maintained every couple of years. Compare the facts!

New composite fencing

10-year maintenance cost for 10 No 6'x6' composite panels. Note: Although composite fencing does not require any maintenance to preserve the life span of the fence, it will weather over time and blend into the surrounding area as a timber fence does.

* Figures based on a timber panel which would need treating a minimum of four times over a 10-year period, using 14 tins of preserver @ £22.49 each, 50 hours of your customers' time at minimum wage of £7.20 (From 01/04/16).

BENEFITS AT A GLANCE

Environmentally friendly

Manufactured from 75% recycled materials, so you can be assured that you are helping the environment.

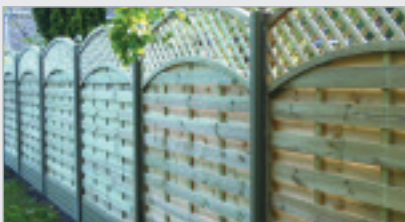

Use with existing posts

Remove the old wooden panels from the concrete posts and slot the composite fencing in place.

Looks and feels like wood

The unique finish will add beauty and unlike most traditional fencing, the dual face means you can also share the cost with neighbours.

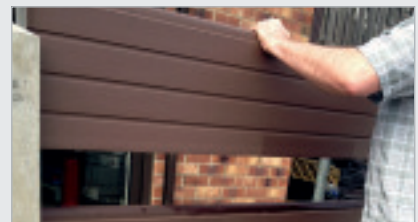

Use with timber panels

Composite fencing posts and gravel boards can also be used in conjunction with wooden panels.

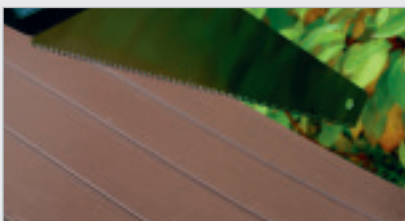

Extremely strong

Independent testing has proved a greater tensile strength than concrete posts, demonstrated by the 56 stones above! It will even flex in strong winds.

Incredibly light

At around 5kg, it is incredibly light and strong, it makes handling and transportation easy. The health and safety risks of concrete fence posts are eliminated.

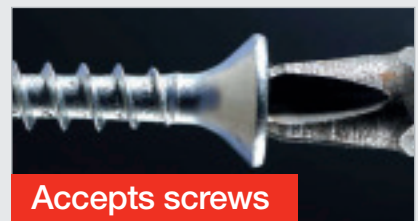

Can be cut with a handsaw

Composite fencing and gravel boards are easy to cut and trim to suit popular European fence panels (1.8m wide). The material will also accept screws to secure the fence into position.

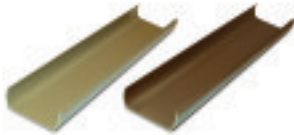

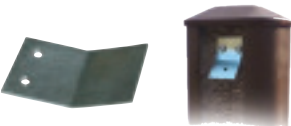

Lightweight

Accepts screws
