SHOWER PANELS

The no-mess solution for perfectly finished shower walls

Deeplas extensive range of shower panels have been designed specifically to fit modern 900mm and 1200mm width shower trays. With no grouting required, this is a quick and easy way to provide a high quality finish to any bathroom. Available in a range of colours and finish options, this ensures that there is a design to enhance all shower and bathroom interiors. Deeplas shower panels are 100% lead free, meet stringent Class 1 fire ratings and has a 5 year guarantee given a perfect finish that will last.

More than just a shower panel

To transform the look of the whole bathroom, Deeplas shower panels can also be used to create continuous flat panels by using the mid joint trim.

Why choose Deeplas shower panels?

- Available in a range of colours and finishes to suit every taste
- Available in 2400mm Length x 10mm Thick x 900mm or 1200mm widths
 - Class 1 fire rated*
 - Completely lead-free – for minimal environmental impact
- Quick and easy to install – no grouting required
 - 100% water resistant
 - 5 Year Guarantee

EASYCEIL CEILING PANELS

White waterproof panels provide an attractive wipe-clean ceiling for any application

If you need to create a clean, waterproof ceiling for any bathroom, shower enclosure or wet room, EasyCeil from Deepplas provides an ideal solution that will enhance the appearance of your room.

Premium-quality wipe-clean panels

The lightweight, white gloss panels are 100% waterproof and are embellished with chrome in-fills to create a premium-quality look. Panels are delivered with a protective film covering and once fitted can be kept in immaculate condition with a simple wipe clean. The White Oak ceiling panel is available with matching trims.

Code	Product	Colour	Colour Code	Length	Qty pack

EASYCEIL CEILING PANELS

Easy-to-install panels help to reduce condensation

As well as improving the appearance of your room EasyCeil panels can help to reduce condensation and enhance the insulation of your room.

Why choose EasyCeil ceiling panels?

- Gloss white tongue-and-groove panels with chrome in-fills to enhance the appearance of any bathroom, shower enclosure or wet room
 - White Oak foil panels giving an architectural recessed finish
 - Easy to maintain, with a wipe-clean finish
 - Designed for rapid, simple installation
- Waterproof panels help to reduce condensation and improve insulation
 - Class 1 fire rated*
- Completely lead-free – for minimal environmental impact

* Excluding foiled products

INSTALLATION

Pre-installation panels

Panels can be fitted in any room in the house, office, factory, food preparation area etc. Includes shower cubicles with a maximum of 60 degrees, not recommended for steam rooms. Use general purpose, solvent based adhesives or neutral cure low module silicones when fixing to plaster or brickwork. Use a moisture cure, solvent free adhesive or silicone when fixing to tiling. Clean with a non-abrasive household cleaner with a soft cloth or sponge. Do not use neat bleach. Rinse with water.

1. Batch number

Always check the batch numbers on each box to ensure they are exactly the same prior to installation.

2. Use spirit level

Apply back of starter edge trim and corners to wall/ceiling – Use spirit level continually to check for straightness.

3. Measure

Measure panel, cut to size if required, and fit together. Tongue and groove boards slot easily together.

4. Apply

Apply front face of edge/corner trims to complete installation.

When using in wet areas a 3mm bead of silicone is recommended between panels to ensure a waterproof joint.
